EDUCATION

School of Information Technology, RGPV University

Bachelor of Technology in Computer science and business system (8.01 C.G.P.A)

Bhopal, MP

Nov. 2021 – May 2025

EXPERIENCE

Frontend Developer Intern

Feb. 2025 – May. 2025

Babynama

Remote

- Developed **responsive and SEO-friendly** web pages using Next.js and TypeScript, translating **Figma designs into high-quality, maintainable code**.
- Integrated **payment gateway REST APIs**, enabling secure transactions and dynamic content rendering for 1.5 Lakh+ monthly users.
- Implemented **mobile WebView components** and built reusable UI modules for enhanced cross-platform functionality, **reducing mobile app bundle size** and improving maintainability.

ReactJS Developer Intern

Feb. 2025 – May. 2025

Quadb tech

Remote

- Developed **responsive web interfaces using React.js**, converting Figma designs into pixel-perfect, maintainable components and ensuring mobile-first compatibility.
- Collaborated cross-functionally with design and backend teams to implement seamless API integrations, debug issues, and enhance **user experience** across multiple live projects
- Built and managed the **admin panel** for a nationwide Web3 hackathon platform, integrating dynamic content and user actions through **client-driven feature requirements**.

PROJECTS

JsonPaglu | *Reactjs, Javascript, Tailwind Css,*

[Github Link](#)

- Developed a responsive web app using ReactJS and Typescript with an integrated code editor, enabling users to convert JSON input into TypeScript, Zod, and MongoDB schemas , reducing manual schema creation time by 40
- Implemented real-time JSON validation with detailed error feedback, improving input accuracy and reducing schema-related bugs.
- Implemented dynamic routing using React Router to seamlessly switch between schema types (TypeScript, Zod, MongoDB), optimizing frontend performance.

CodeCanvas | *NextJS, Typescript, Tailwind CSS, html2canvas, Microsoft Azure*

[Github Link](#)

- Built a **NextJS and TypeScript** web tool that creates downloadable images of code snippets using HTML2Canvas, **supporting 6 programming languages**.
- Integrated Tailwind CSS for dynamic styling, allowing users to **resize snippets**, select from **3 themes**, and choose **7 gradient background** colors having **100+ users and launched it on peerlist**
- Leveraged Next's component architecture to enable easy resizing of images, along with **customization and downloading** of code snippets, enhancing developer workflow.

TECHNICAL SKILLS

Languages: HTML, CSS, Javascript, Typescript, ReactJS, NextJS, C++,python, linux

Developer Tools: Git, Github, VS Code, Figma, Postman

ROLES AND RESPONSIBILITIES

- Open source supervisor at ASPER** : Took sessions and organized events on open source, Responsible for promoting and cultivating an open source culture, fostering collaboration, sessions, and nurturing a thriving community of contributors.
- Volunteer at **TEDxRGPV**
- Open-source contributions** ([Github-gist](#))
